Sustainable together –  
our responsibility in  
purchasing

# Taking responsibility

For us at Isabellenhütte Heusler GmbH & Co. KG, sustainability is not just a fad, but deeply rooted in our corporate values. It shapes our daily actions and our purchasing strategy in order to achieve long-term positive ecological and social effects.

## SUSTAINABLE DEVELOPMENT GOALS

**“For us, acting in an ecologically sustainable manner means looking to the future, questioning the consequences of our actions and using resources sparingly.”**

*Dr. Felix Heusler  
CFO*

# Sustainability as part of our responsibility

Sustainability is not just a goal for us, but a principle that resonates in everything we do. By focusing on responsible decisions, we want to contribute to a better – for people, our environment and future generations.

## Environmental Sustainability

Our aim is to select suppliers and service providers who are characterized by verifiable environmentally and health-friendly production processes. We focus on innovative approaches such as biodegradable packaging, the promotion of recycling and the reduction of emissions along the entire supply chain.

## Local sourcing

Through the targeted promotion of local producers and suppliers, we actively contribute to strengthening the regional economy, reduce CO<sub>2</sub>-emissions and promote close cooperation with our community. In this way, we create synergies that bring both economic and environmental benefits.

## Social responsibility

We are committed to working only with suppliers and partners who meet the highest standards for fair working conditions, fair wages and safe workplaces. In addition, we actively promote further training for our employees and suppliers in order to raise awareness of sustainability and embed social responsibility throughout the entire supply chain.

# Standing up for human rights and fairness

Our conviction: Human rights and equality belong at the center of every cooperation. For this reason, we are committed to high ethical standards and work with partners who guarantee fair, safe and non-discriminatory working conditions. In this way, we take responsibility for a fair and respectful future.

## Gender equality, human rights and ethics

Our suppliers and service providers must adhere to strict ethical standards, promote gender equality and human rights and guarantee non-discriminatory working conditions. We also demand clear protection against forced labor and child labor along the entire supply chain.

## Anti-corruption and transparent practices

Our suppliers and partners are committed to the highest standards in terms of in terms of corruption prevention and transparency in all business processes. We promote a corporate culture that focuses on integrity and fairness.

## Establishing partnerships

Our vision is to build long-term, partnership-based relationships with suppliers, producers and service providers who share our values and work with us towards a sustainable and socially and socially just future. Through close cooperation, we create innovative solutions for the challenges of tomorrow.

# A head start through innovation

We are continuously developing our purchasing practices, to offer sustainable and socially responsible products. With innovative solutions and high-quality materials, we actively contribute to a better future and minimize the consumption of resources over the entire life cycle.

## Product quality and durability

Our products are characterized by outstanding quality and durability, which we ensure through careful material selection and advanced manufacturing processes. This reduces waste and minimizes the consumption of resources over the entire life cycle of our products.

## Continuous improvement

Our purchasing practices are constantly evolving, with the clear aim of providing more sustainable and socially responsible products and services. Together with our partners, we are working on developing innovative solutions that have a long-term positive impact on the environment and society.

## Together for a sustainable future

By making a consistent commitment to sustainability in our purchasing we not only make a positive contribution to the environment and society, but also build long-term partnerships based on trust, respect and shared values.

Let's take the next step towards a sustainable future together. Become part of our initiative – be it through collaboration, joint projects or the exchange of best practices. Together we can achieve great things.
